

About us

Met Alliance Group is Dubai based trading company active in the supply of non ferrous metals with a primarily focus on zinc and lead. The company supplies industrial customers worldwide but in particular Africa, the Middle East and Europe.

Met Alliance Group provides a full range of financial and commercial services to metal producers and consumers including financing, hedging, marketing, logistics as well as technical expertise.

Please contact us to discuss tailoring of specific pricing strategies that may be suitable for your business.

The board of directors of Met Alliance Group has more than 50 years experience in the metals industry, having worked for zinc and lead smelters in Europe, the CIS and Asia. Each director has significant knowledge in providing hedging, marketing and financing solutions for customers and producers, gained while working for established trading houses, manufactures and banks.

Met Alliance Group is fully compliant with all REACH regulations

Met Alliance Group has offtake agreements with several lead smelters based in the CIS while also working together with several producers based in Europe and Asia.

While offering Zinc and Zinc alloys worldwide but with focusing on the Middle East
